

DepositLeads Truth & Source Audit

Generated 2026-06-14

Deploy gate: PASS - Truth audit passed with no blocking findings.

Summary

- Claims scanned: 75
- Routes covered: 9
- P0 blockers: 0
- P1 warnings: 0
- Source proof coverage: 100%
- Verified or reviewed: 23%

Four-Layer Control

Source-proof every claim: active

- Every real-world claim is expected to carry source name, URL/table, observed date, refresh date, confidence, and demo/prod flag.

Truth audit crawler: active

- Major app routes are inventoried and scanned through shared claim validators; browser crawling can add rendered-page claims without changing rules.

Banking domain validators: active

- Rates, FDIC report periods, formation-date recency, verified contacts, mortgage precision, score mismatches, and compliance wording use banking-specific checks.

Deploy gate: active

- The CI script exits nonzero on P0 truth findings and allows P1-P3 findings only with a warning/backlog report.

Findings

- No findings in the current audit inventory.

Route Coverage

- /dashboard: 0 claims, 0 findings, needs_browser_crawl
- /app/action-autopilot: 0 claims, 0 findings, needs_browser_crawl
